

HOW TO SAFELY USE AND CARE FOR BLOBBY

The boring but
important stuff

HELLO!

Hi new friend, I'm Blobby! I like rainbows, parties, and most of all, stories. I'm here to help you feel calm, safe, and in control at bedtime. My favourite way to spend an evening is to help illuminate storytime, but I can also be used overnight as a soft night light if you need me.

I know I'm super cute, but I'm not a toy. Please ask a grown-up to read these instructions to you, to learn how to safely and gently care for me so I can be your bedtime bestie for years to come.

PARENTS

How can you use Blobby in the bedtime routine?

We've designed Blobby to help turn bedtime battles into bedtime adventures. Before the bedtime story, ask your child to choose one of Blobby's seven colours to match their mood or story. Incorporating Blobby into your nighttime ritual will help your little one feel empowered in their bedtime routine, foster a sense of confidence and control, and signal that its time to wind down.

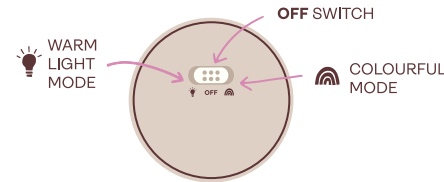

When it's time for lights out, say 'goodnight Blobby' and gently tap their head to turn them off.

Whilst we recommend Blobby just for storytime, if your child needs a soft light for comfort whilst falling asleep, you can leave Blobby on their lowest warm light setting. Either turn this off after they've fallen asleep, or leave it on overnight.

Please note, that the battery life will last up to 20 hours on the lowest warm light setting, but less if one of the coloured lights is used. Blobby is safe to leave plugged in, while in use.

HOW TO USE

- 1 Flip to switch between the warm light mode and colourful mode

- 2 Pat Blobby's head or squeeze Blobby's belly to cycle through colors in Colourful mode and to choose dimness level in warm light mode.

CHARGING

Orange light on indicates when charging.
Light will turn off once charged.
